Aayush Saini

TEST NO.	DESCRIPTION OF TASKS	RELATED FR	RELATED US	STEPS TO EXECUTE	EXPECTED RESULTS	PASS
Epic 1 – Save Product						
TC-001	Verify that an authenticated customer can save a product to the Save For Later list.	FR-001	US-001	1. Log in. 2. Navigate to a product.	The selected product is added to the Save for Later list, the Save icon updates, and a success confirmation message is displayed.	✓
TC-002	Verify that duplicate products cannot be added to the Save for Later list.	FR-007	US-002	1. Save a product. 2. Attempt to save the same product again.		✓
TC-003	Verify that appropriate notifications are displayed after save actions.	FR-011	US-003	1. Save a product successfully. 2. Attempt a duplicate save.	Success notification appears after a successful save, and an informative message is displayed for duplicate save attempts.	✓
EPIC 2 - Manage Saved Products						
TC-004	Verify that customers can view all saved products.	FR-002	US-004	1. Log in. 2. Open the Save for Later page.	All saved products are displayed with their latest information.	✓
TC-005	Verify that customers can remove saved products.	FR-003	US-005	1. Open the Save for Later list. 2. Click Remove on a saved product.	The selected product is removed from the Save for Later list, and the list updates immediately.	✓
TC-006	Verify that current product details are displayed for saved products.	FR-005	US-006	1. Open the Save for Later page. 2. Review the product information displayed.	Product image, name, price, category, and availability match the latest catalog information.	✓
EPIC 3 - Move Product to Cart						
TC-007	Verify that a customer can move a saved product directly to the shopping cart.	FR-004	US-007	1. Log in. 2. Open the Save for Later page. 3. Click Move to Cart for a saved product.	The selected product is added to the shopping cart, removed from the Save for Later list, the cart count updates, and a success message is displayed.	✓
TC-008	Verify that product availability is validated before adding a saved product to the shopping cart.	FR-010	US-008	1. Open the Save for Later page. 2. Select an out-of-stock saved product. 3. Click Move to Cart.	The system prevents the product from being added to the cart and displays an appropriate out-of-stock message.	✓
EPIC 4 - Session Management						
TC-009	Verify that saved products persist after the customer logs out and logs back in.	FR-012	US-009	1. Save one or more products. 2. Log out. 3. Log back in. 4. Open the Save for Later page.	Previously saved products remain available in the Save for Later list after the customer logs back in.	✓
TC-010	Verify that the Save for Later list synchronizes across different devices after login.	FR-006	US-010	1. Save a product on Device A. 2. Log in to Device B using the same account. 3. Open the Save for Later page.	The latest Save for Later list is synchronized and displayed consistently across both devices.	✓
EPIC 5 - Empty State & Navigation						
TC-011	Verify that the Empty State screen is displayed when no saved products exist.	FR-008	US-011	1. Ensure the Save for Later list is empty. 2. Open the Save for Later page.	The Empty State screen is displayed with a helpful message informing the customer that no products have been saved.	✓
TC-012	Verify that the Browse Products button redirects customers to the Home page from the Empty State screen.	FR-009	US-012	1. Open the Empty State screen. 2. Click the Browse Products button.	The customer is successfully redirected to the Home page and can continue browsing products without errors.	✓
